ST ANDREWS
Research Open-day in Computer Science

OCTOBER 26TH 2018
10 AM - 4 PM

Current and prospective industrial collaborators are welcome to beautiful St Andrews to

◉ Learn about the cutting edge in artificial intelligence, cloud computing, machine learning, advanced networks and computing systems, programming languages, human-computer interaction, data analysis and visualisation, and their applications.

◉ See how the University of St Andrews can help you start incorporating bleeding-edge research into your company.

◉ Establish new ways to interact and recruit our undergraduate and graduate students.

◉ Refresh your links with our School and learn about our expansion plans.
