ST ANDREWS

Research Open-day in Computer Science

OCTOBER 26TH 2018
10 AM - 4 PM

We invite our colleagues, from any School at the University of St Andrews and other institutions in Scotland to

- Learn about the cutting edge in artificial intelligence, cloud computing, machine learning, advanced networks and computing systems, programming languages, human-computer interaction, data analysis and visualisation, and their applications.
- Learn about how to effectively engage with the School through student projects, grants and more.
- Establish collaborations across disciplines.
